DETAILED ACTION

Election/Restrictions

1. Newly submitted claims 20-87 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: The previous claims submitted October 11, 2005 do not discuss the added limitations of the operating configurations comprising user-selected frequency sets to be scanned by the radio receiver as shown in the present claims.

Since applicant has received an action on the merits for the originally presented invention, this invention has been constructively elected by original presentation for prosecution on the merits. Accordingly, claims 20-87 withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.
